Committee Meeting Called.

The Democratic Committee of the
28th Senatorial District is hereby
called to meet at the Courthouse in
Winchester, Ky., Monday, March 27,
at 1 o'clock p. m., for the purpose of
fixing the time and manner of choos-
ing a Democratic candidate for Sena-
tor from said district.

Honey Found In Steeple.

At Maysville, passersby on the
street below noticed the outside of
the steeple of the First Presbyterian
church in that city covered with a
moving mass of bugs, and upon ex-
amination it proved to be a big swarm
of bees. They had evidently been
using the steeple as a home for
years, as there was found stored there
hundreds of pounds of the choicest
honey. The product will be removed
and the bees unmolested.

Captured by Japs.

Capt. W. V. Judson, of the U. S. A.,
was captured by the Japs at the bat-
tle of Mukden. Mrs. Judson, nee
Miss Alice Clay, sister of Sidney G.
Clay, of this city, who is now with
her mother at Lexington received the
following cablegram from her hus-
band Tuesday from Yin-Kow, Man-
churia: "Captured. Safe. Well.
Will go to Japan."

Captain Judson was sent to study
the warfare of the Russians by the
United States at the beginning of the
war, and is one of the most dis-
tinguished men in the United States
States Engineering Service.

WANTED.—I will pay the highest

FORREST B. THOMAS.

More Trouble Brewing.

Gov. Beckham declared his confi-
dence in Col. Biscoe Hindman by ap-
pointing him Colonel of the First Ken-
tucky Regiment after having heard
the complaints filed against him by
line officers of the regiment. Judge
James P. Gregory was appointed
Lieutenant Colonel and Capt. Marmaduke
B. Bowden as Major of the Third
Battalion. The line officers
opposed to Col. Hindman say that his
appointment will be recognized for
present, but that when an election is
ordered they hope to elect Gen. John
B. Castleman as Colonel. Should they
fail in this they say they will
resign.

Busy Time at Ford.

About 500 rafts of logs that were
tied up at Ford for several days be-
gan moving, passing through the gap
made by the waters around the Mad-
ison wing of the dam. The river bank
has been washed away. The govern-
ment buildings were undermined
and wrecked. The cost of repairing
the damages and put the dam in ser-
viceable condition will approximate
\$200,000. Most of the rafts passed
safely through.

In striking contrast with the devas-
tion below are the busy scenes at
Ford. Both the mills there are run-
ning day and night, employing a
combined force of over 300 men.

Wanted.

Place containing about 15 or 20
acres of land, with dwelling house,
about two or three miles from town.

Latonia Race Track.

The Kentucky Court of Appeals
affirmed judgment of Kenton circuit
court in the Latonia race track case
of George C. Perkins against W. E.
Applegate and others, and under the
decision the track goes into control
of the American Turf Association.
Had Perkins won it would have gone
to the Western Jockey Club. The
track was sold by Perkins to Apple-
gate and others for \$200,000, of which
\$65,000 was still due when Perkins
took advantage of the contract be-
tween the parties to sell 800 shares of
the stock, which was held as collateral
security. The question was as to the
legality of the sale which was private,
when the contract provided it should
be "public."

New Way of Raising Tobacco.

Two plants, one of tobacco, the
other of corn, may be the solution for
raising the finest grade of Burley,
says the Breckinridge Democrat. At
B. F. Beard's tobacco warehouse is a
lot of Burley of a fine bright color,
said to be equal to the canvass grown
article. It is the product of a Breck-
inridge farm, where each hill contain-
ed a plant of tobacco and a stalk of
corn. The corn shaded the tobacco
until it has a superior color and tex-
ture that will place it among the
finest cigarette tobaccos. We are
unable to learn the effect the tobacco
had upon the corn, but can see no
reason why, with plenty of fertilizer,
the corn yield would be materially
decreased. Farmers may well make
inquiry into the matter and experi-
ment in this double-crop growing.
To grow two large crops where hith-
erto but one could be produced is a
question of profound importance in
farm economies.
